AFRICA ENERGY Co.

ILLUSTRATIVE PRODUCT RENDER

BATTERY ENERGY STORAGE SYSTEM (BESS)

Yankari Power Reserve

Sized to the site · modular and scalable

A modular lithium-ion storage system, designed for the site and expanded as demand grows. It works with solar, grid or generator, and an integrated battery management system with remote monitoring keeps every module in view.

System type	Modular lithium-ion BESS
Capacity	Designed for the site and scalable as the load grows
Battery management	Integrated BMS
Monitoring	Remote monitoring and control
Energy sources	Solar, grid or generator
Cycle life and efficiency	Set per configuration and stated in your quote

Named after Yankari, Bauchi State.
